Experience Summary

- Senior QA Automation Engineer / Test Lead with 10+ years of experience in Software Testing, including strong expertise in Automation and Functional Testing across enterprise applications.
- Extensive experience in designing and implementing automation frameworks using Selenium (**TestNG, Cucumber**) with **Java and C#**, along with modern tools like **Playwright and FlaUI** for web and desktop automation.
- Proven experience in building scalable automation solutions, improving regression efficiency, and enhancing product quality through continuous testing practices.
- Hands-on experience in **automating desktop applications using FlaUI** and web applications using **Selenium**, with ongoing migration to Playwright for improved performance and maintainability.
- Strong exposure to cloud-based testing, including **IBM Cloud Pak for Data (CPD)** and **OpenShift** platform, ensuring stability of enterprise analytics applications.
- Experience in testing **data-driven analytics platforms**, including validation of **multidimensional models, business rules, and AI-assisted insights**
- Extensive experience in Insurance (**Guidewire PolicyCenter & BillingCenter**), Telecommunications, CRM (**Salesforce Classic & Lightning**), and Analytics platforms (**Planning Analytics, PAfE**).
- Experience in **TOSCA automation** (UI and API testing), API testing, and microservices validation.
- Proficient in **CI/CD** integration using Jenkins and version control systems like GitHub and SVN.
- Hands-on experience in mobile testing using **Appium and UFT Mobile Center**.
- Basics in performance testing using **JMeter and LoadRunner**.
- Strong knowledge of test management and defect tracking tools including **ALM Octane, Azure DevOps, TestRail, HP ALM, and JIRA**.
- Experience working in **Agile and Waterfall** methodologies with strong collaboration across cross-functional and distributed teams.
- Skilled in requirement analysis, test case design, defect management, and ensuring high-quality releases.
- Excellent communication, problem-solving skills, and ability to quickly adapt to new technologies and environments.

Core Competencies

Automation Testing | API Testing | Microservices Testing | OpenShift | CI/CD
Agile Methodology | Test Leadership | Data Validation | Enterprise Application Testing

Technical Skills

Automation Testing: Selenium WebDriver (TestNG, Cucumber BDD), Playwright, TOSCA
Desktop Automation: C#, FlaUI

API / Web Services: SoapUI, Postman

Programming Languages: Java, JavaScript, C#

Cloud & Platforms: OpenShift, Cloud Pak for Data (CPD), Azure DevOps

Databases: Oracle DB, MongoDB

Version Control: SVN, Git, GitHub

Tools & IDEs: Eclipse, IntelliJ IDEA, Visual Studio, Visual Studio Code, JIRA, TestRail, GitHub

Functional Applications: Guidewire (PolicyCenter & BillingCenter), Salesforce (Lightning & Classic)

Domains: Data & Analytics, Insurance, Telecommunications, CRM

Professional Experience

Senior QA Automation Engineer

Jul 2024 - Present

IBM India Private Limited

Product: Planning Analytics (PA) & Planning Analytics for Excel (PAfE)

Technology: C#, FlaUI, Javascript, Selenium WebDriver, Playwright, OpenShift, AI-assisted tools

Domain: Data & Analytics (Models, Business Rules, AI-assisted Insights)

- Experience in testing data-driven analytics platforms, including validation of multidimensional data models, cubes, and business rules
- Designed and developed a **desktop automation framework** using **C# and FlaUI**, reducing manual regression effort by ~40%
- Automated enterprise analytics web applications using **Selenium WebDriver**, increasing test coverage by ~60%
- Played a key role in **Selenium to Playwright migration**, enhancing automation capabilities
- Performed **Cloud Pak for Data (CPD) testing on OpenShift**, ensuring reliability of cloud-based deployments
- Developed automation tools in **Red Hat-based Fyre environments to support CPD testing** on OpenShift clusters
- Built internal solutions integrating OpenShift cluster connectivity, storage configuration, and CPD installation workflows
- Leveraged AI-assisted prompts using IBM internal tool (BOB) to streamline environment setup and improve efficiency
- Executed **bi-weekly regression cycles**, ensuring stable releases with zero critical production defects
- Identified, logged, and tracked defects in **JIRA**, improving early detection and reducing production leakage

Test Lead

May 2020 - Jul 2024

Ernst & Young

Project: Insurance – Private Car (Guidewire)

Technology: Guidewire (PolicyCenter & BillingCenter), Selenium WebDriver, Cucumber BDD, TestNG, ALM Octane

Domain: Insurance

- **Led QA team** in delivering a large-scale digital transformation project for an insurance application using **Agile methodology**
- Automated front-end and back-end validation for **Guidewire PolicyCenter and BillingCenter** using **Selenium with Cucumber BDD and TestNG**
- Worked on **Galen Framework for UI validation**, ensuring consistent look and feel across multiple devices and screen resolutions
- Conducted cross-device and mobile testing using UFT Mobile Center to ensure application compatibility and performance
- Designed and maintained test cases using **Hexa-wise** and **ALM Octane**, ensuring strong test coverage and traceability
- Automated API testing using **BDD approach**, improving reliability and reducing manual validation effort
- Monitored and maintained regression pipelines using ALM Octane dashboards, ensuring build stability and quick issue resolution
- Executed regression cycles for each release, providing detailed reports and quality metrics to stakeholders
- Actively participated in Agile ceremonies, collaborating with cross-functional teams to ensure timely and high-quality delivery

Associate

Feb 2016 - Feb 2020

Cognizant Technology Solutions

Project: Solar System (Salesforce) | Tech: Salesforce (Lightning & Classic), Selenium, TestRail | Domain: CRM Cloud

- Worked as a Lead Automation Tester for Salesforce Sales Cloud (Lightning & Classic) applications
- Performed functional and automation testing for CRM workflows including approvals, reports, dashboards, and integrations
- Executed and managed test cases using TestRail, ensuring test coverage and traceability
- Provided production support and defect resolution, ensuring system reliability and minimal business impact

Project: Quality Insights BOTs | Tech: TOSCA | Domain: Analytics / AI

- Tested AI-driven analytics platform, validating data workflows and system outputs
- Automated testing using TOSCA, improving efficiency
- Validated dashboards and analytics insights for accuracy

Project: AT&T | Tech: Selenium, TestNG, Rest Assured, Kafka | Domain: Telecommunications

- Performed microservices and API testing using Rest Assured, TestNG, and Kafka
- Worked on and enhanced automation framework for backend and UI validation
- Validated JSON request/response data with MongoDB for data consistency
- Automated UI workflows, improving efficiency and reducing manual effort

Project: TWC | Tech: Core Java, SoapUI, ParaSoft SOATest | Domain: Telecommunications

- Automated functional and API testing using Selenium, SoapUI, and ParaSoft SOATest
- Developed and executed test cases, ensuring application quality
- Logged and tracked defects using JIRA

Education

Diploma in Computer Engineering
Govt. Polytechnic College, Chelakkara, Kerala

2009 - 2012

B.Tech in Information Technology
Cochin University of Science and Technology (CUSAT), Kerala

2012 - 2015

Certifications & Awards

Certifications

- Guidewire Certified – InsuranceSuite 10.0 Analyst
- Microsoft Azure Fundamentals (AZ-900)
- Microsoft Azure AI Fundamentals (AI-900)
- Scrum Foundation Professional Certificate (SFPC)
- Tricentis Certified – Tosca Automation Specialist
- Tricentis Certified – Tosca Test Design Specialist

Awards & Recognition

- Exceptional Client Experience Award – Recognized for high-quality, defect-free delivery and strong team collaboration
- Spot Award – Awarded for outstanding performance and contribution to team success
- Pillar of the Month (Cognizant) – Recognized for fast learning, analytical skills, and quality delivery

Personal Details

Nationality: Indian
Location: Kerala, India (Open to relocate – UAE)
